EXPERIENCE

Cloudkaptan   **Sep 2022 – Present**
Fullstack Software Developer   *Kolkata, India*

- Designed and implemented web applications using **ReactJS, Django REST Framework,** and **AWS Services**. Increasing efficiency by **86%** and ensuring seamless user experiences.
- Implemented **serverless architecture** using **AWS Lambda functions** resulting in a **30%** reduction in infrastructure cost.
- Collaborated with **UX designers** and **QA engineers** to deliver scalable, high-quality code, boosting performance by **80%** and user satisfaction by **75%**.
- Acquired proficiency in front-end development utilizing industry-standard tools and technologies, including **ReactJS** with **JavaScript, TypeScript, Redux, MUI Material**, and various **hooks.**
- Cultivated a commitment to **professional ethics, discipline,** and collaboration within **large teams, gaining valuable real-life lessons** in the process.
- Integrated **AWS WAF captcha** for enhanced security measures and incorporated functionality to enable **Multi-Factor Authentication (MFA) via QR code**.

Aviram Technology   **Aug 2022 – Oct 2022**
Front End Developer   *Remote*

- Analyzed and developed a web application using **Reactjs, Javascript & Typescript** which enhanced the user experience and improved the user engagement by **55%**
- Successfully interfaced with backend APIs, improving data retrieval efficiency by **65%** and seamless display mechanisms to enhance user interaction.
- Delivered projects on time with **98% accuracy**, **enhancing team efficiency by 30%** while gaining hands-on experience with industry-standard tools.

TECHNICAL SKILLS & TOOLS

- **Languages** - Java, Python, JavaScript, TypeScript, SQL, Html, CSS, GraphQL
- **Frameworks & Libraries** - ReactJS, NextJs, Tailwind, NodeJs, Django, Fast API, Material UI
- **AWS Services** - AppSync, Lambda, API Gateway, Cloudwatch, Secrets Manager, S3, EC2 & VPC
- **Database & Tools** - DynamoDB, AWS RDS, PostgreSQL, Jira, Git, Github, Notion, Lucid

PROJECTS

Jobscript - Find your dream job ⬈

- Created a **job/employment web application** with separate access for companies/HR (admin) and employees (standard users) to manage job applications and postings.
- Implemented features for job seekers to **easily apply for job roles** and for admins to **post job openings**, streamlining the hiring process.
- Utilized **ReactJS** for the front end and **Django REST Framework (DRF)** for building robust **APIs**, along with **PostgreSQL** as the database.
- Employed multiple **hooks** and **Material-UI** components for a responsive, interactive user interface.
- Currently integrating a new **React Flow** feature to streamline the hiring process, with plans to implement an **AI chatbot** for assistance and support.

EDUCATION

Siliguri Institute Of Technology   **2019 – 2023**
*Bachelor Of Technology , Computer Science And Engineering - **CGPA** - 9*   *Siliguri*

CERTIFICATION & BADGES

AWS Certified Cloud Practitioner   Credential ⬈

AWS Partner: Technical Accredited   Credential ⬈
